

PROFESSIONAL AFFILIATION

- Technical Board of Engineering and Architecture, Panama (JTIA)

PROFESSIONAL EXPERIENCE

Wendy González has experience in forensic consulting at CERS, in which she has carried out evaluation and survey of structural conditions, as well as supervision and execution of repairs.

At CERS she works as a repair coordinator engineer for the execution of the various services offered by the company such as: evaluation, remediation and repair of leaks in water storage structures, protection of waterproofing systems for structures exposed to various climatic conditions, reinforcement of structures with carbon fiber. In addition, performs budget cost evaluation, review of construction project documents for analysis, design evaluation and construction defects in case of litigation. He has carried out repairs and renovations in reinforced concrete structures with special materials.

Previously, she served as supervisor of technical inspection of multiple works, counter-plan inspection, demolition inspection, construction safety inspection and monitoring of compliance with the construction

industry regulations in Panama. He was also dedicated to the development and drawing of plans, as well as finish work inspection during construction.

Graduated from the Technological University of Panama with a degree in Civil Engineering.

OSHA Certified in Construction Safety and Occupational Health and Hygiene.
